

Spec Sheet - The Modular Free-Standing Wine Dispenser

Current CERTIFICATES

Technical specifications

Standard features of The Modular

- Climate control: (6-20° Celsius or 43-68° Fahrenheit) at 25 degrees room temperature (ambient)
- Preservation: either argon or nitrogen gas
- Serving: Standard (3 x) portion settings per bottle position
- Easily expandable by linking multiple units by using only one electricity cord (up to 6 units)
- Doors can be locked to avoid access
- Tubes which guide the wine are easy to change, optimum hygiene
- The inner LED lighting is dimmable in two positions

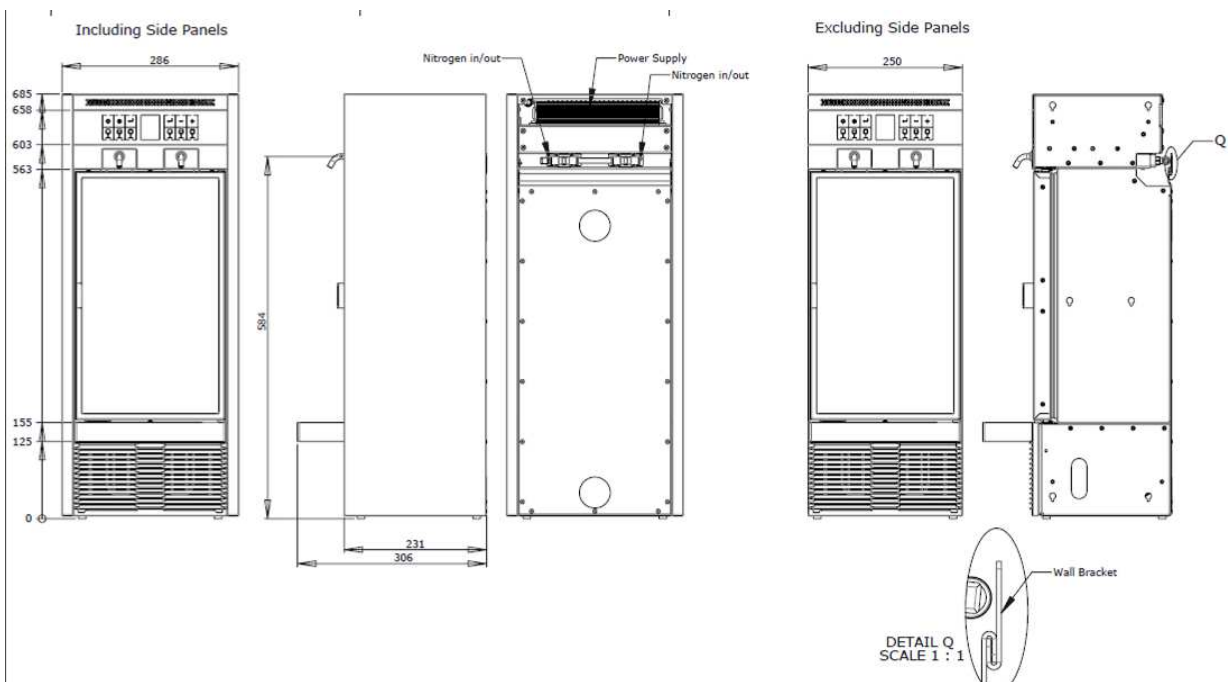

Technical data

- Voltage: 90-240VAC (autoswitch)
- Frequency: 47-60Hz (autoswitch)
- Total power at work: max 165W per unit
- Thermoelectric cooling with ventilation outlet at the front side
- Digital electronic control system
- 3 x energy saving LED lights ("warm white")
- Dimensions (excluding side panels) L x H x D = 250 x 690 x 230 mm
- Dimension (optional) side panels (L x H x D) 18 x 680 x 230 mm
- Steel door with thermopane glass
- Weight 22 kg
- Number of bottle positions: 2
- One year guarantee on all components.
